URBAN

VOLUME 26, No. 31

CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA

FRIDAY, JANUARY 28 1921

DR. JULIEN BOURBUET

Dr. Julien Bourbuet, a noted French surgeon, came to the United States, at the summons of several wealthy Americans who want their noses rebuilt. Doctor Bourbuet served in the French army as a surgeon, and astonished the medical profession by his marvelous operations in restoring wounded French soldiers' faces.

ENGINEERS APPROVE IRON CANYON PROJECT

Cost of Canal with Dams and Hydroelectric Plant

Sacramento—The great Iron Canyon project, involving the construction of a huge dam, canals and laterals covering a net irrigable area of 225,000 acres, lying chiefly in Tehama and Glenn counties, which is of such prime importance to the upper Sacramento valley, has been approved by the United States reclamation service and the state engineering department. This fact was announced to the members of the Sacramento Valley Development Association at a recent meeting by William A. Beard, general manager of the association, and the report bearing upon the subject has since been made public by the organization.

The report of the federal and state engineers and geologists, as submitted, embodies results of an extensive series of surveys begun in 1919 and concluded last May, and which included extensive diamond drill explorations which disclosed satisfactory foundation upon which the proposed great dam may rest. It is shown that the total cost of the project would be \$37,577,932. This, however, under the report, would be reduced to \$30,577,932 by deducting \$7,500,000, the estimated value of a hydroelectric power plant which is included in the project.

SMUGGLERS DISAPPEAR

U. S. Seeks Two Men With Rich Loot of Drugs.

San Francisco—United States Treasury operatives have begun a nationwide search for Daniel Brown and Fred Pigars, employees of the Pacific Mail Steamship Company, who are either victims of foul play or else are somewhere on the face of the globe with \$200,000 worth of smuggled narcotics in their possession or its equivalent in money.

Opium and morphine to this amount were smuggled off the steamer Equador on the night of December 31. Brown was a steward on Pier 42 at the time, and Pigars a storekeeper and chief carpenter. Both disappeared next day.

Members of a band of Chinese smugglers in the crew of the Equador are said to have turned over the huge supply of drugs to the two white men for them to take ashore and deliver to an address in Chinatown. Instead they either stole the contraband or met with foul play, it is believed by United States operatives.

KELP PLANT TO BE SOLD

Washington—An appropriation of \$150,000 to complete and operate during the coming fiscal year the government kelp plant at Summerland, Cal., was stricken out of the agricultural bill in the House today on a point of order, but later the House voted to appropriate \$5000 for the plant and authorized the secretary of agriculture to sell it.

BOUNTY ON BANK THUGS

Kansas City—A standing reward of \$500 to any person for the death of each bandit killed while attempting to rob a member bank has been voted by the Association of Suburban Bankers.

ALAMEDA TO GET NAVAL BASE

Base Will be Among Largest in the World

Washington—Alameda, on San Francisco bay, is understood to have been selected by the joint Congressional committee as the site for the main naval fleet base on the Pacific Coast.

San Diego is the committee's choice for the principal aviation base, and San Pedro for the destroyer base. Establishment of another aviation base on the north coast at Sand Point, Washington, also will be recommended.

The committee's recommendations are expected to be announced formally later. They will include several minor bases on the Pacific Coast. Alameda was selected for the main fleet base in competition with Mare Island, where the navy yard now is located, and two other cities on San Francisco bay.

The committee's decisions are not final, and do not involve the abandonment of the Mare Island Navy Yard, which under committee plans would be retained for the accommodation of smaller vessels.

Expenditure of \$25,000,000 for the Alameda base is proposed, but the question of future appropriations is not within the jurisdiction of the committee.

The proposed naval base at Alameda will be among the largest in the world, according to government estimates. It will cover eight and a third square miles in the 5340 acres deeded to the nation as a free gift by the people of Alameda at a special election last year. The base will extend from the Oakland inner harbor out into San Francisco bay to a point near the present man-o-war row and eastward to a point south of the Alameda bathing beaches.

Nearly 3000 acres more are available to the navy, if necessary. The base will be used to repair, victual and otherwise supply the Pacific fleet. Among the buildings projected is a six-story warehouse, 1000x200 feet. Two 1030-foot dry docks, three piers, a ferry slip and a dry dock pier are also provided for.

MONKS HUNT MURDERERS

Their Dogs Find Three Mountain Climbers Murdered.

Geneva—A story of murder in the Alps, a thing unheard of before, has been reported by the monks of the St. Bernard hospice, which stands at an elevation of 8100 feet. The monks and their dogs were aroused early yesterday morning by revolver shots. With the aid of the dogs they found the bodies of three well-to-do Italian Alpinists in the deep snow.

The bodies of two were found first, riddled with bullets. They had been robbed. After a longer search with the help of the Swiss patrol the third man was discovered. The three Alpinists had started from Aosta without guides. They were last seen at Gignod, 3260 feet.

The murderers used skis. Both the Swiss and Italian passes are being guarded by the Alpine police and the monks and dogs are aiding them in the search for the murderers.

RACE WAR IS THREATENED

Negroes Taken from Jail by Mob and Shot to Death.

Nordina (N. C.)—Alfred Williams and Plummer Bullock, two negroes, were taken from the Warren County jail at Warrenton by a masked mob this morning and shot to death.

No effort was made to molest the other eleven negroes who were confined in the jail in connection with the race riot clash here yesterday.

Bullock was said to be the instigator and Williams one of the leaders of the negroes in the clash. About 150 men were in the mob that entered the jail. The two negroes were taken into the woods about a mile outside of town and their bodies riddled with bullets.

BRITISH SUBMARINE LOST

Disaster Occurred While Submersible Was at Practice.

London—British submarine K-5, Commander John A. Gaines, was lost with all hands, approximately 56 men, at the approach to the English channel, 100 miles off Land's End, the admiralty announced yesterday.

The disaster to the K-5 occurred while she was practicing with four other submarines of the K class. She submerged and never rose to the surface again. The cause of the disaster is not known.

LIGHTNING STRIKES STREET CAR

Los Angeles—Nine persons, three of them women, were seriously burned here when lightning struck a trolley wire, causing a heavy voltage of electricity to run down a trolley pole into the controller box of a Pacific Electric railway car. The controller box burst into flames, burning the front platform of the car, which was crowded with passengers.

True Riches

If I can leave behind me, here and there,
A friend or two to say when I am gone
That I had helped to make their pathways fair,
Had brought them smiles when they were bowed
with care,
The riches of this world I'll carry on.

If only three or four shall pause to say,
When I have passed beyond this earthly sphere,
That I brought gladness to them on a day
When bitterness was theirs, I'll take away
More riches than a billionaire.

CALIFORNIA NEWS ITEMS IN BRIEF

Paragraphs of Interest to Readers of Golden State

Work has begun on Alpaugh's new \$20,000 domestic water system.

There are twenty-one cases of smallpox in the Sacramento County hospital.

It is announced that a new fig packing house will be built in Merced within a short time.

A large soap company has a force drawing plans for a \$3,000,000 factory to be erected in Richmond.

The ice crop has been successfully harvested at Boca, Prosser Creek and Polaris. A large supply was obtained.

Porterville has an even break with Fresno and Bakersfield in getting for 1921, according to reported statement made by the commanding officer of western headquarters.

State Mineralogist Fletcher Hamilton has announced the appointment of R. E. Colom as State oil and gas supervisor to fill the position made vacant by the resignation of R. P. McLaughlin on January 1, 1921.

One person was killed and thirty were injured when a gasoline motor passenger coach of the Southern Pacific Railway crashed into an automobile truck and trailer at Huntington Park, Los Angeles, last week.

Oil field operations reported to R. E. Colom, State oil and gas supervisor, during the week ending January 15, 1921, show 34 new wells, 31 tests of water shut-off, 19 deepening or re-drilling jobs, and three abandonments.

The formalities attendant upon the passage of the Fresno city charter were transacted in the office of Governor Stephens last week.

William Thompson, a resident of the Far West since the '50's, and former county clerk at Virginia City, Nevada, died last week at Jackson.

Among the nominations this week for postmaster were Lucius R. Barrow, to be postmaster at San Diego, Cal., and George D. Dool, to be postmaster at Calexico, Cal.

Patrols of the Boy Scouts of America will be organized in Yuba and Sutter county communities by the Marysville Rotary Club through its boys' work committee.

A whirlwind, described by local meteorologists as a waterspout, came in from the ocean at Santa Barbara last week and unroofed a number of buildings before its force was spent.

The Pacific Gas and Electric Company is establishing a work camp just outside of Cottonwood, where seventy-five men will be employed in the erection of a new sub-station and power line.

Enlargement of the list of elective courses carrying college credit at the Chico State Normal school, to become effective with the opening of the new semester on January 31, was announced last week by President C. M. Osenbaugh.

The she may be able to manage the large orchards of her father's estate on the outskirts of Woodland, Miss Lela Hecke, daughter of G. H. Hecke, State superintendent of agriculture, has entered the machinery department of the State University farm at Davis.

The Railroad Commission has granted C. E. Sansome a permit to establish an auto passenger service between Hayes Lease, Tupman Lease and Bakersfield. He is not to touch through business from Taft or from Western Water Works into Bakersfield.

The academic senate of the University of California has decided that all freshmen and underclassmen who entered the university this semester will be required to take an intelligence test as part of the entrance requirement.

Over-exertion while swimming is said to have caused the death of Lou G. Hare, former county surveyor of Monterey. Hare dropped dead of apoplexy following a plunge in the Del Monte Baths.

Members of the board of directors of the San Jose Chamber of Commerce are solidly back of the movement to have a road parallel to the State highway built to San Francisco to relieve traffic conditions.

Old bridges were rebuilt and old songs revived at the first reunion of the Eighteenth Engineers since overseas days, in San Francisco last week. Members of the outfit from California, Washington and Oregon attended.

In a decision handed down by Judge William Finch of Glenn county, sitting for Superior Judge A. B. McKenzie, the Port Costa Water Company was prohibited from taking water in large amounts from the Ygnacio valley wells.

Ed. Dunnigan, who sued the Nippon Rice Company for \$7500 damages, alleged to have been caused by an overflow of rice irrigation water onto his rice field, was awarded \$3500 by a jury in the Superior Court at Willows last week.

An allotment of \$45,000 has been received by the Pacific Unitarian School of Berkeley from the \$3,000,000 fund recently secured by Unitarians for use in the United States, and the money will be used for the erection of a new school building.

According to Forest Supervisor F. P. Cunningham of the Fifth District, improvements to be made in Sequoia National Forest this year will be made immediately following the supervisors' conference at Mather field, Sacramento, January 31 to February 5.

Statewide search for Walter Earl Green, a teacher of Berkeley and a graduate of the University of California, who disappeared from his home in Berkeley on January 4, has been instituted by F. R. Green, his father, a real estate agent of Brentwood.

Investigation into the death of L. Arthur McGee, whose body was placed on the Southern Pacific rails near Stockton last week, after he had been shot in the neck and dragged to the track, reveals that he left Stockton with a negro companion, for whom search is being made.

Hidden away in an old shack on the ranch of Louis Worden, eight miles from Marysville, prohibition agents found an illicit still, seventy gallons of jackass brandy and a quantity of bottles. They arrested Worden, took him to Sacramento, where he was released on putting up \$1000 bail.

At the opening of the bids at Greenview for the sale of the Shasta County Indian lands by E. K. Miller, Indian agency superintendent, the land was sold to the Pitt River Power Company. These lands were in two pieces, near Redding, and brought \$5150. They are located on the Pitt river in Shasta county.

Government employees guarding the Federal power plant's four-foot pipe line in Yosemite valley fled for their lives before tons of earth and rock that swept down in a mountain landslide last week, caused by the rain and snowfall of several days. Eighty feet of pipe line was smashed. Wire communications were paralyzed.

With the filing by the Great Western Power Company of application for a permit to build a dam, reservoir and conduit eighteen miles long to a power house on the North Fork of the Feather river, it is believed that actual construction of the mammoth hydro electric plant above Oroville will be started soon. The plant is to cost \$6,000,000.

The only way that employees over the retirement age of 65 may now be retained at the Mare Island Navy Yard is by the recommendation of the head of his department that "he is more efficient than any employee likely to be laid off on account of lack of funds." A hundred or more employees are affected by the retirement order, which will take effect on February 20th.

"DOC." WELLS IS PROMOTED BY ASSOCIATED OIL CO.

Also Gets Arm from the Canadian Government

Fred F. Wells, popularly known to the people of Los Gatos as Sergeant "Doc" Wells, has been promoted to the position of sales manager in the Los Gatos district for the Associated Oil Co. Another item of news concerning "Doc" Wells is that he has just been

down, Wells held the position for six hours—at that time his position was completely surrounded by the Germans—and his men, except himself and six others, were killed! While directing the rifle fire of his men, he received five machine gun bullets in the left arm and

"Each one of us thought the other had been killed."

presented with an artificial arm, costing \$300, by the Canadian government. His many friends throughout the county will be much pleased to learn of the much deserved recognition involved in these two occurrences.

We are glad that "Doc" Wells has decided to make Santa Clara County his home. Here's "Doc's" own words as to why he made this choice: "The reason I came back here to live is because that during my three years of lecturing I was never so well received as I was by the people of Santa Clara Valley—and especially in Los Gatos—a 'Gem City' in truth and a place I can call HOME, where I have made some WONDERFUL friends."

When the war broke out in August, 1914, the first two men to volunteer for active service abroad from Canada were Fred F. Wells and Harry E. Pearson.

After five months of hard training in England, Sergt. Wells, with the famous "Seventh" Battalion, arrived in France and saw active service for the first time in the trenches at the famous Ploegsteerte woods, in Belgium. Next he was moved with his battalion to Fleurbaix, France, where he took part in the battle of "Neuve Chapelle." It was shortly after this battle that the first Canadian division was moved up to "Ypres Salient," known now as the "Canadian graveyard." It was while in the trenches here that Sergt. Wells received his first official recognition—for organizing a "tin can band," and earned an honorable mention in dispatches.

On the memorable 22nd day of April, 1915, when the Germans used the poison gas for the first time, Wells found himself in the thick of the fighting. For four or five days the Canadians fought like grim death against the hordes of Huns, being outnumbered 50 to 1. With no artillery to support them, no gas masks to protect them from the deadly fumes of chlorine gas, they fought on, and eventually saved the day.

Sergt. Wells' battalion suffered heavily—out of 1150 men, only 122 answered roll call on the fourth day of fighting.

On the morning of the 24th, Wells with his platoon of fifty men, volunteered to re-inforce No. 3 company of the 7th, which was in an advance position and bearing the brunt of the attack. With 140 men under his command,

Harry Pearson, an old school chum of Sergt. "Doc" Wells, after serving five years in France, being seriously wounded five times and was promoted from the ranks to a warrant officer, is now living with "Doc" in San Jose.

"Doc" and Pearson were members of the Canadian militia, the 104th Westminister fusiliers. When Capt. Harvey was shot later when the Germans took his position he received a bayonet wound in the left arm and side—and still later, as he lay among the dead or wounded, a

shell exploded nearby and his left knee was shattered.

For two days Sergt. Wells lay out on the battle field trying to crawl toward his own lines, but was picked up by a German patrol and taken behind the German lines.

After a five mile march, driven along at the point of a bayonet, "Doc" found himself on a cattle truck and was taken to Roulers in Belgium, where a German doctor amputated his left arm. From there he was sent to a German prison camp at Ohrdruf, Saxony, where, as soon as his wounds had healed, he was forced to work at building roads and breaking stones. While with one of these working gangs, he earned the displeasure of his guard who gave him a severe jab with a bayonet in the back, a wound from which he is still suffering.

Four months later, in company with about three hundred other prisoners, he was moved to Ascham Aix-la-Chapelle, near the Holland border. Shortly after that, Wells and another prisoner succeeded in making their escape into Holland and from there were sent to England.

It was at the Third London General hospital that Sergt. Wells came face to face with Sergt. "Jake" O'Riely, whom he supposed had been killed. O'Riely likewise had thought that "Doc" was dead, as he had been officially reported "killed in action."

It was at the time of the happy reunion of the two heroes that the photograph printed in connection with this article was taken.

Wells returned to Canada in November, 1915, and the Canadian government sent him on a tour of the Dominion with the first official government war pictures, lecturing in aid of recruiting, during which time he made a record of 8000 recruits, a record never beaten. After touring all of Canada, he entered the United States and lectured in New York, Chicago and Boston.

After America's entrance into the war, he was invited by the American Red Cross to lecture in this country. For eighteen months, Sergt. Wells lectured in all sections of the country on behalf of the Liberty Loan and Red Cross drives and was the most prominent war lecturer of the period, raising over a million dollars in Liberty bonds and \$180,000 for the Red Cross and prisoner of war funds.

During his lecturing tour he suffered three breakdowns and was forced to cancel a number of speaking dates.

Finding no place so pleasing to live in as the Santa Clara Valley—Sergt. Wells came back here to locate, and as stated in the beginning of the article, he now holds a responsible position with the Associated Oil Co. He hopes eventually to come to Los Gatos to reside.

Today "Doc" is the proud possessor of the 1914-1915 war star, which was recently sent him with the following

FOR SALE:—Orchard wood, in stove length. Also 1 buggy, 1 surrey, 1 wagon and one disc plow in good condition. John Brynteson ranch. Phone 7M. 31-3t

RACE WAR IS THREATENED

Negroes Taken from Jail by Mob and Shot to Death.
 Norlina (N. C.)—Alfred Williams and Plummer Bullock, two negroes, were taken from the Warren County jail at Warrenton by a masked mob this morning and shot to death.
 No effort was made to molest the other eleven negroes who were confined in the jail in connection with the race riot clash here yesterday.
 Bullock was said to be the instigator and Williams one of the leaders of the negroes in the clash. About 150 men were in the mob that entered the jail. The two negroes were taken into the woods about a mile outside of town and their bodies riddled with bullets.

BRITISH SUBMARINE LOST

Disaster Occurred While Submersible Was at Practice.
 London — British submarine K-5, Commander John A. Gaines, was lost with all hands, approximately 56 men, at the approach to the English channel, 100 miles off Land's End, the admiralty announced yesterday.
 The disaster to the K-5 occurred while she was practicing with four other submarines of the K class. She submerged and never rose to the surface again. The cause of the disaster is not known.

The school districts of Slate Range, Mill Creek, Celestial Valley and Oak Valley, located in the region north of Camptonville, have been consolidated and all pupils will be grouped in one schoolhouse.

CAMPBELL MUST FIGHT FOR WATER

WATER! WATER! WATER! EVERYWHERE (?) but fight for what you get. This is the particular predicament of the Campbell community, as far as the county conservation committee is concerned. Here is a committee of supposedly representative men, planning to manipulate the entire water proposition of this county, and so far, but one public meeting has been held to learn the wishes of those most affected. At Campbell, the proposition as presented by the committee was most emphatically and overwhelmingly rejected by the representative growers of the district. Many meetings of this committee have been held since organization, but judging by its actions in holding them in secret, their idea seems to be, "the public be damned." This stupendous project is being controlled by a mere handful, and at present writing, there seems to be nothing but a selfish motive back of the proposition as maintained and controlled by a single mind. Why does this body not hold open meetings and keep the interested public informed as to its actions? There can be but one conclusion. Something is being slipped to one section or another. Thus far this committee has expended several thousand dollars of the county's money. And what have they done with it? Ask the committee. On Monday, February 7, this committee will ask the county Board of Supervisors for another sack of money to carry on their organized secret work. Will they get it? If they do, will they throw and hog-tie the Campbell irrigation project? They may do that, and things as detrimental, to other districts, but not to the Edenvale-Coyote district. This is a question of most vital import to all residents of the county, and it is very urgent that those growers of this section of the valley who know what they want in the way of irrigation, should be at the next meeting of the county Board, and express their views.

THE LAST CENSUS REPORT shows that over half of our people have become city dwellers, and the trend of population is still cityward. All efforts to turn the people "back to the land" have so far proved futile. Since we have become an industrial people, it is out of the question at this time to turn the tide back to the country. But there is a way by which the people who are working in stores, offices, factories and shops may be brought in contact with Mother Earth, and that is through the National Homecroft Movement. A great national awakening through the avenues of education and instruction is necessary before this can be accomplished.—The Talisman.

STATE SECRETARY REVERSES RULING Asiatics Who Served in War May Buy Land

Sacramento — Reversing the previously announced policy of his office, Secretary of State Frank C. Jordan today announced that until the question is finally settled by the courts, he no longer will reject articles of incorporation of land companies organized by foreign-born Japanese or other Asiatics who served with the American military or naval forces during the world war.

Previously, on December 28 last, Jordan refused to accept for filing the incorporation papers of the Valley Industrial Corporation, a Fresno concern, holding that there was doubt of the right of Japanese, Chinese or other aliens to become citizens of the United States even under the act of congress which granted such rights to aliens who had served in the American naval or military service during the war.

The proffered papers of the Valley Industrial Corporation contained the names of four Japanese incorporators, who were declared to have served in the American forces and to have subsequently been naturalized.

MONKS HUNT MURDERERS

Their Dogs Find Three Mountain Climbers Murdered.

Geneva—A story of murder in the Alps, a thing unheard of before, has been reported by the monks of the St. Bernard hospice, which stands at an elevation of 8100 feet. The monks and their dogs were aroused early yesterday morning by revolver shots. With the aid of the dogs they found the bodies of three well-to-do Italian Alpinists in the deep snow.

The bodies of two were found first, riddled with bullets. They had been robbed. After a longer search with the help of the Swiss patrol the third man was discovered. The three Alpinists had started from Aosta without guards. They were last seen at Gignod, 3260 feet.

The murderers used skis. Both the Swiss and Italian passes are being guarded by the Alpine police and the monks and dogs are aiding them in the search for the murderers.

W. C. T. U.

The Woman's Christian Temperance Union of Campbell will meet on Wednesday at 2 p. m. at the home of Mrs. C. H. Whitman, North Central avenue. Any interested are cordially invited to attend. This meeting is to be half an hour earlier than the usual time. The membership contest is on and a large attendance is desired, also promptness. It is expected that Mrs. J. E. Seiversson, matron of the Southern Pacific depot, will be present and give a talk upon her work.

Mrs. H. G. Farr of Los Gatos has been secured as speaker for the Home and School Club on Tuesday, February 1st. Mrs. Farr is an earnest well-informed speaker. Pass the word along that those who attend this meeting may be sure of an interesting and profitable time! Mothers, take an afternoon off and enjoy the speaking, music and social hour at the grammar school auditorium. Mrs. Farr will emphasize some of the duties of parents in co-operating with the teachers.

SCHOOL CLOSED

The Campbell grammar school was closed Monday morning at the suggestion of the local health officer, Dr. I. W. Merrill, first as a direct protection to the school children and secondly as a community protection against the spread of diphtheria, which unfortunately attacked one of the teachers.

This is in no way a holiday festival and each parent is urgently requested to carefully observe their children's throats twice daily and be on the safe side. Announcement of opening of school will be made later.

PIER DESTROYED BY FERRY

Benicia—A near panic resulted last week when the Martinez-Benicia ferry-boat, the City of Seattle, carried by the swift current of the swollen waters of the Sacramento river, crashed into and destroyed its terminal here. One automobile, forming part of the ship's load, was hurled into the waters of the bay. No one was injured. Sixteen piles were destroyed when the boat crashed across the pier.

Knowing versus Guessing

How much does it cost you to live? How much money can you afford to spend in any way you please? Do you know, or must you guess?

If you do not actually know, try this plan: Put on paper a list of your monthly expenses—the cost of groceries, meat, vegetables, fuel, water, lights—everything you can think of. Now estimate yearly doctor and dentist bills, and the cost of your annual vacation. Divide these last by twelve, and add the result to your list of monthly expenses. You may be surprised and a little shocked at the size of the total.

You now have the starting point of a family budget, and you will begin to wish that you had done all this before. Cash in on this present inspiration—resolve to live by a budget always. Having so resolved you will begin to feel a bit "chesty," a little superior to the average run of folk. But do not congratulate yourself too soon. You have forgotten to allow for monthly savings—that "nest-egg" for the future!

There is an obliging clerk here, waiting to enter your name for that savings account.

Youth and Old Age

When you and I were young, what a wonderful world this was! Then peaches seemed as big as pumpkins. Why, the very air was different; so charged with electric, life-giving ozone that to breathe it was to tingle. When we sprang up in the morning, we were blithe as the birds. Even if our little bodies had to stay on earth, our buoyant spirits sailed right up above the trees, with the swallows.

Things are changed now. Nothing looks the same, tastes the same, feels the same. To stir our creaking joints in the morning is to step knee-deep right into a thick, slimy ooze of trouble, seven times bluer than indigo. But what can we do about it?

What can we do about it? Why, we can take a cup of steaming hot Blaine's Coffee! Every sip of that fragrant, stimulating beverage will set our ages back five years. The next best thing to being sixteen is to have that juvenile exuberance; hence we can tingle as we drink Blaine's evenly-ground, chaff-removed, scientifically-blended, steel-cut coffee, and be thankful that we can get a cup of youth at a price so reasonable.

-40c-

P. S. Good evening—have you eaten your yeast cake?

E. A. Baugh is enjoying the fireside this week nursing that grippy feeling.

Mrs. E. C. Hurlbert of Pacific Grove is the house guest at the J. D. Blaine home.

J. H. Campbell is confined to his home with a severe attack of rheumatism and gripe.

The Pundita Circle will meet with Mrs. B. O. Curry Wednesday, February 2nd, with Mrs. Curry, Mrs. L. P. Beal and Miss Forbes as hostesses.

Campbell High School P. T. A. realized \$23.40 from its food sale last week and wishes to extend its thanks to all who helped to make the affair successful.

Principal D. H. Cramer of the Campbell Union high school was at home the fore part of the week, nursing a severe cold with fever and sore throat accompaniments.

The local Masons will hold their annual "ladies' night" February 5th. The committee in charge are making preparations to give the Masonic families "one time of their lives."

George Whitney has removed all of the trees from his lot on Campbell avenue except the large black walnut tree. He plans to begin building operations when the winter season is over.

Announcement has been made of the engagement of Miss Cecile Ellison and Gilmore Duncan, son of Mr. and Mrs. F. E. Duncan of Johnson avenue. The wedding will be in the early summer.

Mr. and Mrs. Charles Sutter completed the removal of their household goods Wednesday and are established temporarily in the garage on their lot at the corner of Campbell avenue and Third street. Later in the year they plan to build.

E. E. Weeks was given a pleasant surprise Tuesday evening by a party of his old time friends. The occasion was in celebration of his sixtieth birthday anniversary. As a remembrance of the day he was presented with a cabinet stand and several records for his phonograph.

Miss Clara Smith of the San Jose Normal will speak on "Bills Pending in the Legislature," at the Fathers' Night meeting of the Cambrian P. T. A. on Friday evening, February 4. The meeting will be held at the Cambrian school and a large attendance is urged, as Miss Smith is a very able speaker and makes a specialty of this subject. A social hour will follow the address.

The Pilgrim Pageant, which the Congregational church is preparing, will be presented Saturday night, February 12, according to present plans. This pageant was arranged for celebration of the tercentenary of this landing of the Pilgrims, but it was gotten so late in the year that it was impossible to get it ready. This date, being Lincoln's birthday, seems quite a fitting occasion for its presentation.

SAVE THE CHILDREN

The relief campaign for the babes of Europe has been launched in Campbell and Chairman J. C. Ainsley reports that checks have already come in.

This will not be in the nature of a soliciting drive but it is hoped that when the good people of this community realize that \$10 will save a child until next harvest in Europe their hearts will move them to help liberally. Cash or checks may be left at Mr. Ainsley's office, both banks at Campbell, or the Press office.

Chairman Ainsley has appointed the following committeemen to assist in the campaign:

B. O. Curry, C. H. Whitman, Ralston Alison, L. T. Lenox, R. H. Hyde, Rev. F. C. Farr, Rev. H. L. Preston, H. C. Smith, G. S. Robson, J. J. Pardee, D. H. Cramer, H. E. Brandenburg, M. A. Ross, J. E. Wiesendanger, Mrs. G. L. Parso, W. R. Coupland, C. E. Hanger, W. H. Woodbury and Mrs. Louis Shelley.

GEO. HYDE INJURED

Geo. E. Hyle met with a very painful accident Wednesday that just escaped being a serious one. He slipped from a ladder in the tank house and in landing wrenched his back, injured one leg, and struck the back of his head. He was carried into the house in an unconscious condition, but was much better yesterday and anticipates no serious results although it will necessitate his spending a few days of enforced idleness.

CAMPBELL DEFEATS FAST SAN JOSE FIVE

After it had been announced that there would be no basketball game Friday afternoon, Old Sol came out and dried off the ground sufficiently to enable the teams to play.

This was Campbell's second game in the C. I. F. league and being with San Jose demanded the best efforts of the local quintet.

It was probably the fastest and most fiercely contested game that has been fought on the Campbell court. At only one point in the game was the score evened up, but at no time was the balance sufficiently in our favor to lessen the excitement or intensity of the game.

The score by quarters the first half was 10-4; 19-16. The second half started in deadly earnest at the first sound of the whistle, and at the end of the third quarter the points registered 21-20. Upon the resumption of play, San Jose tie the score and enthusiasm was rife among the San Jose rooters. Swift playing brought the score to 27-25, where it remained.

The student body and the citizens generally are very proud of the team and their victory over two of the best teams in this league, San Mateo and San Jose.

Raymond Hulsman was out of the game on account of a lame foot, Joe Heinzen taking his place as guard. The other players were Benner and Gross, forwards; F. Heinzen, center; Sawyer, guard.

Keep up the game, boys, and capture that C. I. F. pennant.

ANNUAL BANQUET

This evening the Improvement Club will hold its annual banquet in the Hyde Cafeteria, Mrs. Roy Miller serving the dinner.

The program will begin sharply at 6:30 o'clock and every one is urged to be very prompt. The opening numbers will be given by the Men's Glee Club, "The Menu" and "Good Fellow," followed by a violin solo by W. C. Bohnett.

After the banquet there will be an address by W. G. Alexander of San Jose and five minute talks by R. J. Rodriguez of the Campbell-San Tomas grammar school and D. H. Cramer of the high school.

Mrs. Ralph Hyde will sing "My Mother Bids Me Bind My Hair," Haydn, and "Blue Eyes," Lane. Mrs. G. S. Robson will act as accompanist for all of the musical numbers.

The usual reports of officers and election of those for the next year will complete the work of the evening.

BOY BAND CELEBRATES

The second of the Boys' Band socials, which was held Friday evening, brought out a good attendance and all seemed to have a good time.

The band played for the dancing most of the evening, but were given a breathing spell by a local orchestra. The hot-dog counter drew its full share of patronage and a guessing contest on the number of candies decorating a cake and used in spelling "Band Boys' Social" netted the fund many dimes. Mrs. E. E. Lanphear and Miss Steindorf made a tie guess of 375, the nearest to the correct number, 369. It being a large cake, the ladies divided it.

FELLOWSHIP SUPPER

The meeting of the Santa Clara County Association of Methodist Ministers, which was held in Campbell Monday afternoon, brought a number of visitors who were guests of the church at the fellowship supper following.

Fully 125 were seated at the tables which were well laden with delectables. The Epworth Leaguers had one section to themselves and enlivened the eats with songs and yells.

Mr. Frank H. Benson was the speaker for the evening session and gave a pleasing and instructive talk.

This is the time and the year to spray. For satisfactory work call on H. E. Evans, phone Campbell 1875.

Notice of Interest

C. Farley and C. J. Olson, vulcanizers, will open a Tire and Vulcanizing Plant next to the Garden City Bank & Trust Co., Campbell, February 1, 1921.

Mr. Farley has had thirty years' experience, and if you want your tires vulcanized, we can give you a square deal, and your money back if the work doesn't hold. Come in and have a talk with us. We will treat you right.

OSTEOPATHY EXPLAINED

Osteopathy maintains that the human body contains all the remedial agents necessary for the maintenance of health. It further asserts that the curative fluids are distributed when and where needed except when such distribution is interfered with by structural disorder.

The average person usually makes the expression that Osteopathy may be good for some things such as Headache or Rheumatism.

While that is very true, if it was understood that the Osteopath understands just how and where to manipulate for the relief and cure of all other ailments and disorders they would not hesitate to procure osteopathic treatment.

MOST FRAGRANT OF FLOWERS

Baltimore Admirer Declares the Breath of the Lilac Stands Unmatched for Sweetness.

When the lilacs breathe, odors of Araby become fetid and astringent in comparison. When the lilacs breathe, their odorous breath carries the fragrance of the distillation of a generation of life and love that they have gathered to themselves, where they have bloomed by the garden wall or against the porch pillar. The old home—wonderful in the vividness of its memories and associations—is created by the picturing of beauty and tenderness that the fragrance of the blossoming lilacs brings to the mind. One sees the path through the garden winding down to the clump of lilacs. The faces of other days are framed in the pictures that fancy creates through the magic of the lilacs.

The panicles of bloom are in full flower and the blooms will be hailed with joy by the multitudes who have in their feelings the sentiments to which lilacs appeal. They are a meditative and reflective kind of flower. They come so quietly in the spring. They bloom forth so abundantly and magnificently. They sing their concert to the airs of April and cause the four winds of the heavens to become their survivors to the joy of mankind.

The lilacs are the softest and most persuasive of all tints, those of lavender and purple, with some of driven whiteness. How wonderful their beauty, the assembling of the blossoms and their disposition upon the branch! How full of art! How exquisitely Dresden is the lilac as it swings in the breeze! And every lilac bush is a product of years of growth, and that growth goes on perennially until one and another generation is laid beneath the sod, and the lilac has been entrusted with the cherished memories of youth and maturity and age—passed out of life.—Baltimore American.

The Yolo county supervisors have authorized County Engineer Asa G. Proctor to proceed at once with the construction of a 25,000 gallon oil tank to be located on the county property near the Southern Pacific station at Woodland.

Search for approximately \$20,000, supposed to have been buried in his basement at San Francisco by the late Pasko Zalles, resulted in the discovery of the treasure, wrapped in leather and placed in an old tin can, buried three feet under the floor of the basement.

The Railroad Commission has reduced from 27 to 20 per cent the surcharge on its electric rates collected by the Southern California Edison company, which operates in Los Angeles, San Bernardino, Riverside, Orange, Ventura and certain parts of Kern and Fresno counties.

Inaugurating a campaign for the parking of the State highway between Tulare and Visalia, in a general scheme which is expected to turn the present road leading by Mooney Park into one of the State's most beautiful boulevards, the Visalia and Tulare Boards of Trade are co-operating.

Business houses in the heart of Oakland suffered a total damage of more than \$100,000 when a 15 inch water main burst under ground at the intersection of two principal streets, flooding the basements of a score of buildings. So great was the pressure that a manhole top was shot many feet into the air by the sudden torrent of water and two large holes were forced through the paving.

For Sale

Five-room bungalow on the most desirable residence lot in Campbell. Has all modern improvements—buffet kitchen, large sleeping porch, and large garage with room for two machines. All in best condition. Enquire Box 217, Campbell, Cal., for further particulars.

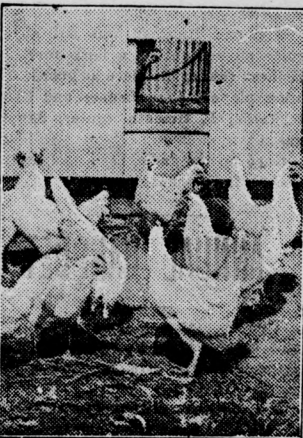

POULTRY FACTS

WHITE LEGHORN IS POPULAR

Most Widely Kept of Egg Breeds—Markets Prefer White Eggs and Pay Premium for Them.

(Prepared by the United States Department of Agriculture.)

Egg production doubtless is the leading branch of poultry keeping, and, in addition, is a very important agricultural activity. According to the last census the eggs produced in the United States in 1909 numbered more than 1,501,000,000 dozens, with a value of more than \$306,000,000. Eggs, of course, are produced wherever chickens are kept, and by far the greater part of the egg crop comes from the general farm, yet large so-called egg farms have been developed with the main purpose of producing eggs for market. The largest of these egg farms and the greater number of them are located near markets which pay a premium for white eggs; and for this reason, together with the fact that eggs are primarily desired, the breeds kept are those known as the

Splendid Flock of White Leghorns.

egg breeds, such as the Leghorn, Campine, Minorca and Ancona. The Single Comb White Leghorn is undoubtedly the most popular and the most widely kept variety of the egg breeds. These breeds comprise the Mediterranean and Continental classes, as given in the American Standard of Perfection. The egg breeds frequently are found on general farms also, particularly in those sections near markets preferring a white egg, and where considerable flocks of poultry are kept.

TURKEYS ON GENERAL FARMS

These Birds, as a Rule, Are Raised in Small Flocks Where Range Is Plentiful.

(Prepared by the United States Department of Agriculture.)

Many turkeys are raised in Texas, as well as a considerable number in Mississippi and Alabama and in western Florida. As a general proposition these birds are raised in small flocks on general farms, where plenty of range is available. Under such conditions they usually yield a profitable income. Not many ducks are raised in the South, but considerable interest is displayed in geese production, while guineas also are raised on many farms. Guinea eggs are used on the home table, as well as being marketed, but as a rule the guineas are allowed to run wild and are not produced on any scale for market purposes.

SUMMER FEEDS FOR CHICKS

Fowls in Confinement Must Be Supplied With Abundance of Green Feed and Meat or Milk.

Chicks and fowls in confinement during the hot weather must have lots of green food and meat or milk, or both. If they are on free range they can obtain much of their meat food in the form of bugs and worms and can add to their variety of grain the various vegetable growths that they obtain by foraging. This is equally true of the fowls.

POULTRY NOTES

Keep the house and yard clean.

Give a heavier feed of grain in the evening.

Keep poultry free from lice and the house free from mites.

Feed grain in straw or other litter to make the hens scratch for it.

Grow green crops in the poultry yards if they are not in permanent sod.

If you have had little or no experience in poultry keeping, start in a small way. Then increase as your experience and success warrant.

Don't let roosters run with the hens after the breeding season is over. The hens will lay just as well and the eggs will be infertile and will keep better.
